Retraction Agreement

Retraction Agreement

***This agreement is the official document for the retraction application supported by EWA Publishing. ***

Notes:

- The retraction application should be approved by all authors listed in the published article.
- The retraction process is entirely irreversible and permanent. Authors may not withdraw the retraction once the agreement has been executed (14 days after receiving the retraction application).
- The *Statement of Retraction* will be displayed on the publication website, replacing the previous published article. The previous published article will be linked with a revised title of “RETRACTED ARTICLE: [article title]”. All author information will be retained in the new link.
- The retracted article should not be submitted to any publications operated by EWA Publishing.
- No refunds will be issued.

If, after carefully reading the above notes, you confirm to proceed with the retraction application, please complete the form below to initiate the retraction process:

Retraction Application Form	
Title of article	Maturity level determination and optimization model of D&A system based on support vector machine and multi-objective programming
Name of journal/proceedings	Applied and Computational Engineering
Name of volume	ACE Vol.14
Article DOI	10.54254/2755-2721/14/20230793
Name of author(s) (in order)	Shunyu Yao
Name of corresponding author	Shunyu Yao
Affiliation of corresponding author	China University of Geosciences Beijing
Email of corresponding author	1004201130@cugb.edu.cn
Reasons of retraction (this part will be displayed in the *Statement of Retraction* on the publication website)	This article has been retracted at the request of the author. The author recently discovered that due to a miscommunication within the original research team (from the 2022 Interdisciplinary Contest in Modeling), a highly similar version of this joint work was previously published by a former teammate in 2022. Because this prior publication occurred without the author's knowledge at the time of submission, it inadvertently resulted in a duplicate publication. To strictly uphold academic integrity, the author has proactively requested this retraction.

DOI: 10.54254/2755-2721/14/20230793

Please read the information below

If the retraction is disputed by the author(s):

This article will not be retracted unless all authors agree to this retraction agreement.

If the retraction is disputed by the publisher:

This article will not be retracted until the author(s) receives the retraction notification.

Authors have the right to contest the retraction.

The article will not be retracted within 14 days of receiving the application, and the authors can contest the retraction during this period.

Once the article's retraction has been executed:

The retraction will not be reversed.

The retracted article will not be accepted by any electronic or physical publications of EWA Publishing;

It is the author's responsibility to be aware of the information above.

The author has read all of the information above and agreed with this retraction.

Yes√ No☐

The hand-written signatures of all authors:

Shunyu Yao
